

心率 66 . Sinus rhythm.....normal P axis, V-rate 50- 99
 . Probable left atrial enlargement.....P >50ms, <-0.10mV V1
 PR 186 . Right bundle branch block.....QRsd>120, terminal axis(90,270)
 QRSD 121 . Left ventricular hypertrophy.....multiple voltage criteria
 QT 412 . ST elevation, consider anterior injury.....ST >0.15mV, V1-V5
 QTc 432
